All environmental monitoring carried out to regulatory requirements and recommendations

- GMP
- ISO
- BS
- EN
- In house SOP's

Medipure Ireland Ltd provides environmental monitoring of:

- Cleanrooms
- Changing rooms
- Manufacturing Areas
- Theatres

At Medipure Ireland Ltd we offer:

- Tailored environmental monitoring programmes to suit your needs
- Comprehensive reports on all sampling performed
- Trend analysis and result interpretation
- Weekly, Monthly, Quarterly, Annual, routine and Non-routine monitoring and validation programmes on all new and existing cleanrooms
- In-house training to enable your staff to monitor areas, hence cutting down on costs
- Non-viable particulate air monitoring
- Viable (active) and Settle air monitoring
- Surface monitoring
- Personnel monitoring

A formal system of bio contamination control should be established, implemented and maintained within cleanrooms and associated environments and it is important that through your environmental monitoring programme the focus is placed on product safety.
